

Integrated Management System Policy

OEM Technology Solutions will strive to deliver products and services that meet our customer's and regulatory requirements. In doing so we will promote a safe and healthy work place that will protect our people from injury and illness in accordance with our WHS Management Policy and the environment from degradation in compliance with regulations in accordance with our EMS Management Policy.

- We will identify all external and internal issues relevant to our Strategic Direction and act accordingly.
- We will set key quality, work health and safety and environmental objectives and seamlessly integrate the most effective processes into our business.
- We will continually improve these processes to match changing circumstances including the identification and assessment of risks to health, safety and the environment to ensure that they are eliminated or controlled.
- We will develop our staff through training to understand and incorporate these processes into their daily working lives.
- We will monitor the effectiveness of our processes by recording and comparing outcomes against our key quality, work health and safety and environmental objectives.
- We will review our performance during our regular management meetings at both company and departmental levels.

Our Integrated Management System (IMS) complies with AS NZS ISO 9001:2015 for quality, OHSAS 18001:2007 for occupational health and safety, and AS NZS ISO 14001:2015 for environmental management.

The Management Representative is responsible for the maintenance and approval of this policy and reporting to the top management regarding the performance of the policy and any need for improvement.
